

Financial Support and Benefits for PhD Students

Our competitive funding package includes tuition, health insurance, a living allowance (stipend), and a relocation bonus to help cover the costs of moving to New Hampshire. Students in good standing are guaranteed funding for five years.

In addition to our funding, some students receive prestigious awards, including National Science Foundation Graduate Research Fellowships, and are supported by research and national training grants administered by faculty.

10-year Stipend Increase (by academic year)

2023-24

Annual Financial Support for Doctoral Students

\$ 129,035
